

Hadis Hospital:

A Future Built on Love and Compassion

A visionary hospital that will rise from remembrance — built to bring healing, dignity, and innovation to those who need it most.

Hadis Hospital will be more than a medical center — it will be a symbol of love turned into action. Inspired by the memory of Hadis, this project will bring world-class healthcare to life. With your support, we will build a facility powered by compassion, designed sustainably, and open to all.

About

A Legacy of Love. A Vision for Healing.

Hadis Hospital will not be just a medical institution — it will become a living tribute to love, remembrance, and the healing power of compassion. Inspired by the memory of Hadis, this hospital will rise to bring light where there is darkness, and hope where there is pain.

Hadis was much more than a name — she was beauty in motion, kindness in voice, and light in every room she entered. She was born on May 10, 1999, and left this world far too soon, on June 15, 2024, after a tragic accident. She was just 25 years old — full of life, dreams, and the kind of presence that made silence meaningful.

This hospital will be built in her honor — not out of sorrow, but out of an enduring love that refuses to fade. Her memory will live on in every heartbeat it helps restore, in every patient it serves.

Why It Matters

There are millions around the world who wait too long for help — or never receive it. Hadis Hospital will change that. It will serve as a sanctuary of advanced healing and human dignity, built on love and

powered by community generosity.

It will become a place where grief is transformed into hope. Where science meets soul. Where love becomes life again.

What Your Support Will Build

- > A fully sustainable, solar-powered facility
- > Over 2,000 smart patient rooms designed for dignity and comfort
- > Advanced robotic surgery and diagnostic technology
- > A research center committed to saving lives
- > Architecture inspired by Hadis's love for sunflowers and the moon — symbols of warmth, strength, and serenity

Proposal

Turning a dream into a structure of healing.

Hadis Hospital will be more than just a building — it will be a sanctuary where modern medicine, sustainability, and emotional architecture converge. This proposal lays the foundation for a future landmark: a symbol of love, resilience, and compassion that will stand for generations.

Key Project Highlights

Project Name	Hadis Hospital
Location	Iran
Total Area	500,000 m²
Capacity	2,000 AI-integrated smart single-patient rooms
Architectural Theme	Moonlit dome with sunflower-inspired wings
Estimated Budget	\$3 Billion USD
Construction Timeline	7 years from full funding completion

Design Philosophy

- 🌙 **By night:** A glowing moon-like dome with messages of healing illuminated in soft blue light
- 🌻 **By day:** Twelve solar-powered wings that track the sun like sunflower petals

Planned Structure Overview

Floor Level	Designated Function
B5 to B1	Smart parking, energy systems, eco-friendly waste units
Ground Level	Emergency, reception, pharmacy, public café
Floors 2–4	General wards (1,800 beds)
Floors 5–7	Surgical units, diagnostics, 200 ICU & CCU beds
Floors 8–10	Medical hotel (VIP recovery suites, family residencies)
Rooftop	Helipad, solar observatory, rooftop healing gardens

Technology Meets Compassion

- **AI-Enhanced Smart Rooms:** Lighting control, biometric monitoring, holographic virtual visits
- **Robotic Surgery:** Precision tools, automated logistics and diagnostics
- **Green Hospital Initiative:** Carbon-neutral systems, water recycling, algae CO₂ filtration

Construction Timeline

Phase	Duration	Milestones
Phase 1	2 Years	Fundraising, land acquisition, final architectural plans
Phase 2	3 Years	Core structure, dome & wings installation
Phase 3	2 Years	Equipment setup, staff recruitment, testing & launch

Hadis Hospital will not only treat the body — it will uplift the human spirit.
With your support, this dream will rise — brick by brick, heart by heart.

Vision

Envisioning a future where healing transcends boundaries and innovation meets compassion.

Hadis Hospital aspires to be a beacon of hope and a model for future healthcare institutions. Our vision is rooted in the belief that medical spaces should heal the soul as much as the body — combining science with serenity, and structure with symbolism.

- **Innovative Care:** Integrating cutting-edge technology with personalized, human-centered medicine.
- **Sustainable Practices:** Designing a facility powered by clean energy and aligned with nature.
- **Community Engagement:** Creating connections beyond treatment – involving families, education, and long-term wellness.
- **Global Standards:** Aligning with top international benchmarks for medical excellence and architectural design.

The architectural language of the hospital will reflect Hadis’s love for the sunflower and the moon – dual symbols of warmth and calm. By embracing these, Hadis Hospital will bring light, dignity, and healing into every space it touches.
